

About Lumetra & GSA

Lumetra Healthcare Solutions is qualified by the General Services Administration (GSA) to provide in-depth healthcare consulting services for mission oriented business integrated service (MOBIS) projects to U.S. government agencies and departments that purchase from the GSA schedule. Under MOBIS, we are designated to provide consulting services (SIN 874-1).

Lumetra Healthcare Solutions is a consulting company providing sustainable solutions that reduce cost and complexity for the business of healthcare by integrating clinical excellence, analytics, and Health Information Technology.

LUMETRA HEALTHCARE SOLUTIONS CAN HELP YOU

- Create a program to enhance quality of care and the efficiency of Electronic Health Records (EHR).
- Develop rigorous quantitative and qualitative methodologies that cut through layers of data and illuminate the key facts necessary for success.
- Eliminate the unintended consequences of program enhancements and improvements.
- Improve program efficiencies by maximizing budget dollars.
- Educate the public or specific populations about key healthcare topics.
- Train clinicians and staff to more effectively care for patients from diverse cultures.
- Design a value-based program to improve patient care and decrease costs.
- Provide independent medical case review.
